

Hogwarts Class Lessons

Welcome to *Potions!*

Today's lesson: concocting a magical mixture lava lamp.

Your task: using the materials listed, create lava lamp with active bubbles

Materials:

- Vegetable oil
- Water
- Food colouring
- Alka-seltzer tablets
- Tape
- A large, clear potion's bottle or beaker

Instructions:

1. Measure your bottle/beaker in four equal parts. Mark each part with a piece of tape. Then, fill two parts with oil and one part with water.
2. Add as many drops of food coloring as needed into your oil-water mixture until you can create the colour you desire.
3. Cut one Alka-Selzer tablet in half and drop it into your mixture.

Watch your magical mixture double, double, fizz and bubble up to the top!
